

## BRIDGE TO SUCCESS

**Tuesday, April 11, 2017**

**12-1 pm**

**Albert Sherman Center  
AS9-2072 Conference Room**

The BRIDGE Research in Progress workgroup provides an informal setting for new and experienced researchers to share nascent ideas or research-in-progress and to receive just-in-time feedback. Do you have an emerging idea for a grant or manuscript? Come share your research ideas and let us help you!

**APRIL PRESENTER:**

**Maira Castaneda, MS  
Pathway to Graduate Study Program**

**“Trends in Cause of Death Among Puerto Rico and United States Multiple Myeloma Patients”**

Quantitative Health Sciences faculty will participate in all sessions. This working group is available to students, residents, fellows, and junior and senior faculty throughout UMMS. All investigators interested in discussing current and emerging research ideas are welcome.

Email **BRIDGE@umassmed.edu** to sign up for a presentation slot. If you are working on a deadline, let us know so we can adjust the schedule to accommodate more urgent needs!

**Lunch will be provided**
