

IMMUNOLOGY & MICROBIOLOGY PROGRAM IMP SPRING SEMINAR SERIES

“Picket Fences and a Pericellular Coat Restrict Molecular Mobility and Direct Phagocytosis”

At the conclusion of this activity, participants will be able to:

- *Learn scientific methods and cause and effects of immune alteration.*
- *Learn molecular and cellular basis of normal and impaired immunity.*
- *Learn normal responses to foreign antigen and strategies to circumvent the responses.*

Presented by:

SERGIO GRINSTEIN, PH.D

Senior Scientist

Department of Cell Biology

The Hospital for Sick Children Research Institute

Thursday, March 30th, 2017

3:00 PM – 4:00 PM

AS8-2072

Accreditation Statement: The University of Massachusetts Medical School is accredited by the ACCME to provide continuing medical education for physicians.

Designation Statement: The UMMS designates this live activity for a maximum of 1 AMA PRA Category 1 credit(s)™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Statement on Faculty Disclosure: It is the policy of the University of Massachusetts Medical School to ensure fair balance, independence, objectivity and scientific rigor in all activities. All faculty participating in CME activities sponsored by the University of Massachusetts Medical School are required to present evidence-based data, identify and reference off-label product use and disclose all relevant financial relationships with those supporting the activity or others whose products or services are discussed. Faculty disclosure will be provided in the activity materials.
