This is a list of over 400 funding opportunities **available for post-doctoral applicants** with a total value of more than \$43M, [sorted by keyword](#).

**Please note:**

- Amounts, terms, eligibility of individual awards varies extensively among funders.
- Most of the listed organizations publish past award lists with titles and abstracts. These are useful to see how other researchers have described their work relative to the stated priorities/mission of the funder.
- Types of proposals requested vary extensively.
- US Citizenship/residency requirement varies extensively.
- In cases where the updated deadline has not yet been posted, the last published deadline is used as placeholder. Anything with a past 2015 date or a date of 2014 or 2013 means that the sponsor hasn't published the next deadline. Usually, a similar date is used each year, so the list can give you guidance on upcoming deadlines.
- Tips for writing
  - Check out [SWAN](#), a Scientific Writing Assistant to create reader-friendly scientific text.
  - Enable [readability statistics](#) in MS Word docs: professional grant writers recommend writing at 8-9<sup>th</sup> grade level.

#### ADVANCEMENT SERVICES

##### We are available to:

- Show you tools to identify funding sources, including tips and shortcuts on how to use [Pivot.COS.com](#), to get weekly emails of customized listings with your specific keywords as well as answer any questions you may have. [Email](#) to arrange a time.
- Talk with you about your grants schedule and funding strategy,
- Attend a department or group meeting to tell you more about private research funding
- Help create a funding strategy
- Give a “Lay-person” perspective on your; LOI; or proposal narratives

It would be helpful to know if you or someone in your area responds to an RFP listed here. It is important that anyone submitting check the [Office of Research Funding Services proposal policy](#) to insure that any other internal requirements are met before submitting. Don't forget to check with your [Office of Technology Management \(OTM\)](#) Licensing Officer to make sure your IP is suitably protected.
