Communicating the Business of Science

Michelle Avery, Ph.D.

Associate Account
Executive, MacDougall
Biomedical
Communications

Michelle Avery, Ph.D., 2011 alumna of the GSBS, began her career as a Communications Associate at MacDougall Biomedical Communications immediately following her graduation from UMMS. Within a year, she was promoted to Associate Account Executive.

Michelle provides life science companies with client-specific communication services related to investor and public relations, crisis communications, corporate branding, business development, marketing, and a host of other needs required in today's competitive marketplace.

Join us to learn about career opportunities in science communications!
