ELEMENTS OF ADOBE PRESENTER PRESENTATIONS

When planning, consider adding the following elements to your presentation:

**TITLE SLIDES**
Title slides are usually the first or second slide in a presentation and state the subject of the content.

**PRESENTER INFORMATION**
Include the name, title, photo, contact information, and a short biography of the presenter or presenters.

**CUSTOM LOGOS**
Add a company or organization logo to brand and personalize a presentation.

**COPYRIGHT INFORMATION**
Depending on the length of the information, include copyright text on the first or last slide in a presentation, or add a separate slide containing only copyright information.

**OPENING AND CLOSING SLIDES**
Create a distinctive start and finish to clearly show users the beginning, middle, and end of the presentation. You can use the same opening and closing slide across a series of presentations for a unified professional look.

**SECTION DIVIDER SLIDES**
Use divider slides to delineate sections within a presentation. Divider slides are especially useful in long presentations.

**SOUNDS**
Voice-over narration, music, or sound effects can add a new dimension to presentations.

**QUIZZING**
Let users interact with the presentation, while you track their learning progress or obtain information (surveys).

**ATTACHMENTS**
Add existing information as supporting content for presentations. You can include documents, spreadsheets, links to web pages, and images as attachments.
