

**Participants, Projects, Mentors**  
**AY 2016 - 2017**

Participant	Department	Project	Mentor	Department
Aaron Ahearn, MD	Surgery	Following up the outcomes of potential donation after cardiac death organ donors who do not progress to cardiac death in the customary one hour interval accepted after withdrawal.	Suzana Makowski, MD	Medicine
Arshiya Ahuja, Md	Pediatrics	Decreasing emerging antibiotic resistance via a systematic approach to managing pediatric respiratory infections	Ted Kremer, MD	Pediatrics
Asem Ali, MBBS	Medicine	Effects of sodium-glucose cotransporter inhibition on free fatty acid metabolism and ketogenesis	Faculty Diversity Scholar Mentoring Team	
Yasmin Carter, PhD	Radiology	The development and evaluation of a flexible clinical experience (FCE) on current issues in transgendered health care	Diane Blake, MD	Medicine
Benjamin Chen, MD, PhD	Pathology	Defining an immune dysregulation signature in acute leukemia and myelodysplastic syndrome by multiparametric flow cytometry	Peter Newburger, MD	Pediatrics
Siu Ping Chin Feman, MD	Psychiatry	Collaborative care for depression in a primary care clinic serving a homeless population	David Smelson, PsyD	Psychiatry
Susan Feeney, DNP, FNP-BC, NP-C	Graduate School of Nursing	Development of an academic partnership between University of Massachusetts Worcester Graduate School of Nursing and Boston Homecare for the Homeless (NHCH)	Michael Kneeland, MD, MPH	Family Medicine & Community Health
Hillary Irons, MD, PhD	Emergency Medicine	Neurocognitive impairment in hypobaric hypoxia at high altitude and the effect of coexisting traumatic brain injuries	Susanne Muehlschlegel, MD, MPH, FNCS, FCCM	Neurology
Dinesh Jagannathan, MBBS	Anesthesiology	Developing integrated obstetric anesthesia curriculum for residents	Deborah DeMarco, MD	Medicine
Carolyn Keiper, MD	Pediatrics	Breastfeeding Residency Curriculum	David Hatem, MD Petra Belady, MD	Medicine Ob/Gyn
Walter Kirpatrick, DO	Psychiatry, Baystate	Development and evaluation of a proactive psychiatric consultation service pilot program	Nancy Byatt, DO, MBA	Psychiatry
Evan Lau, MD	Medicine, Baystate	Cardiogenic shock and acute mechanical circulatory support registry	Robert Goldberg, PhD	Quantitative Health Sciences
Heidi Leftwich, DO	Obstetrics & Gynecology	Placental pathology of fetuses with estimated fetal weight between 10-20th percentile	Vijay Vanguri, MD	Pathology
Paulo Martins, MD, PhD, FAST	Surgery	Is machine preservation of liver grafts with dual perfusion (arterial and portal) superior to portal vein only?	Faculty Diversity Scholar Mentoring Team	

**Participants, Projects, Mentors**  
**AY 2016 - 2017**

Participant	Department	Project	Mentor	Department
Kristin MacGregor, PhD	Psychiatry	Food addiction & binge eating in patients with type 2 diabetes	Stephenie Lemon, PhD	Medicine
Payal Modi, MD, MSc	Emergency Medicine	Diagnosing pediatric pneumonia with point of care lung ultrasound in low resource settings	Suzanne Cashman, DSc	Family Medicine & Community Health
Ika Noviawaty, MBBS	Neurology	Post ischemic stroke epilepsy and penumbra volume correlation	David Kennedy, PhD	Psychiatry
Margaret Owegi, DO	Neurology	A phase 3 randomized, double-blinded, placebo controlled trial to determine the efficacy of mesenchymal stem cell neutrophilic factor cells in ALS patients	Bruce Barton, PhD	Quantitative Health Sciences
Teresita Padilla-Benavides, PhD, MSc	Cell & Developmental Biology	Role of transition metals in differentiation and developmental processes	Faculty Diversity Scholar Mentoring Team	
Ekaterina Pivovarova, PhD	Psychiatry	Measuring quality of life (QOL) in individuals enrolled in drug treatment courts (DTCs): Can QOL predict dropout and identify individuals most in need of additional services?	John Ware, PhD	Quantitative Health Sciences
James Aaron Scott, Do	Anesthesiology	Anesthesiology Critical Care Medicine Fellowship Revitalization	Anne Larkin, MD	Surgery
Sherriyn Sethi, DMH	Family Medicine & Community Health	Provider wellness: Curriculum design, assessment and interprofessional faculty development	Carl Fulwiler, MD, PhD	Psychiatry
Kara Smith, MD	Neurology	Novel biomarkers for early cognitive changes in Parkinson's disease	Jean Frazier, MD	Psychiatry
Cameron Stock, MD	Surgery	Thoracic complications of IV drug use requiring surgical intervention	Melissa Clark, PhD	Quantitative Health Sciences
Urvashi Upadhyay, MD	Neurosurgery	Improving provider-patient communication: Improving neurosurgical patient satisfaction by improving health literacy and setting appropriate expectations	Kathleen Mazor, EdD	Medicine
Qiong Wu, PhD	Pediatrics	BRG1 is a diagnostic marker to predict clinical outcome in neuroblastoma	Eric Mick, ScD	Quantitative Health Sciences

**Participants, Projects, Mentors**  
**AY 2015 - 2016**

Participant	Department	Project	Mentor
Rashmi Bhopi, MD	Pediatrics	Decreasing overuse of unnecessary therapy in management of bronchiolitis in ED of a community hospital in infants by incorporating evidence based guidelines.	Ted Kremer, MD
Jennifer Carey, MD	Emergency Medicine	Adolescent self-harm attempts and the use of social media	Sherry Pagoto, PhD
James Carroll, MD	Surgery	Comprehensive care of the geriatric acute care surgical patient	Jennifer Tjia, MD, MSCE
Kate Daniello, MD	Neurology	Who refers patients for EMGs and why?	Sheri Keitz, MD, PhD
Anindita Deb, MD	Neurology	Development of an innovative global health curriculum for neurology residents	Melissa Fischer, MD
Carolynn DeBenedictis, MD	Radiology	Teaching radiologist who perform image guided interventions effective communication skills through simulation	Sarah McGee, MD, MPH
Eustathia Giannaris, PhD	Radiology	Comparison of 3D-printed and 3D virtual models for understanding the functional neuroanatomy and vasculature relevant to stroke	Ed Boyer, MD, PhD
Igor Gosev, MD	Surgery	PTX3 gene polymorphism and aortic valve stenosis	John Keaney, MD
Gayle Gravlin, EdD, RN	Graduate School of Nursing	Applying best practices in curriculum design to develop and advanced leadership course for the Doctor of Nursing Practice (DNP) learners	Michele Pugnaire, MD
Nils Henninger, MD	Neurology	Association between plasma microRNAs and leukoaraisois burden among patients with cardioembolic stroke	Jane Feedman, MD
Christina Hermos, MD, MS	Pediatrics	A web-based, interactive pediatric infectious diseases curriculum	Julie Jonassen, PhD
Eric James, PhD	Physical Therapy UMass Lowell	Coordination Impairments and risk for falling and mobility limitations among older adults	Milagros Rosal, PhD
Kimberly Lenz, PharmD	Family Medicine & Community Health	Improving access and distribution of Naloxone rescue kits in Massachusetts pharmacies	Kate Lapane, PhD
Kristin MacGregor, PhD	Psychiatry	Food addiction & binge eating in patients with type 2 diabetes	Stephenie Lemon, PhD

**Participants, Projects, Mentors**  
**AY 2015 - 2016**

Participant	Department	Project	Mentor
Ana Maldonado-Contereras, PhD	Microbiology & Physiological Systems	The missing link between the microbiota and IBD pathology	Daniel Caffrey, PhD
Christopher Marshall, MD	Medicine	<b>Changing the classroom instructor-student relationship as a way to improve faculty &amp; student satisfaction</b>	David Hatem, MD
Phoebe Moore, PhD	Psychiatry	Measurement of parenting behavior in anxiety affected families: A systematic review	Kathleen Mazor, EdD
Babak Movahedi, MD	Surgery	Donor specific HLA antibodies in liver transplantation: a shift in paradigm	Jeff Stoff, MD
Rick Pavao, MD	Anesthesiology	Improving perioperative pain management at UMass Memorial Medical Center	Margaret Hudlin, MD
Grazyna Pomorska, MD	Neurology	Review of resilience and neurological Diseases: A general neurologist's perspective on the urgent need to apply resilience thinking to the prevention and treatment of Alzheimer's disease	Judy Ockene, PhD, MEd, MA
Eric Schmidlin, MD	Radiology	Effect of lateral decubitus positioning during CT-guided lung biopsy on the rate of pneumothorax and diagnostic yield	Gerard Aurigemma, MD
Jonathan Slutzman, MD	Emergency Medicine	A life cycle assessment of reusable and disposable laceration repair kits in the emergency department	Lori Pelletier, PhD, MBA
Matthew Stebulis, MD	Anesthesiology	Optimization of Care for Traumatic Hip Fractures	Patricia Franklin, MD, MBA, MPH
Daniel Weber, DO	Neurology	Revitalizing EEG education curriculum	Deborah DeMarco, MD

**Participants, Projects, Mentors**  
**AY 2014 - 2015**

Participant	Department	Project	Mentor
Mohammed Akhter, MD	Medicine	Use of the GRACE Risk Score 2.0 as a predictor of 30-day clinical outcomes in acute coronary syndrome patients undergoing percutaneous coronary interventions with same-day discharge	Robert Goldberg, PhD
Alexander Berry, MD	Urology	Decreasing Complications from Prostate Needle Biopsy - A Quality Improvement Initiative	Jennifer Daly, MD
Leslie Bradford, MD	Obstetrics & Gynecology	Screening Strategies for Lynch Syndrome	Suzanne Cashman, DSc
Dawn Carpenter, DNP, ACNP-BC	Graduate School of Nursing	Develop and perform a national survey to validate essential content for Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) students to work in Critical Care	David Hatem, MD
Olga Ceron, MD	Ophthalmology	Analysis of Specialty Training for Critical Care Nurse Practitioners	Milagros Rosal, PhD
Siobhan Craige, PhD	Medicine	Muscle Adaptation to Exercise	Katherine Fitzgerald, PhD
Peter Gibson, MD	Medicine	UMass Sports Cardiology Program	David Fairchild, MD
Masilo Grant, MD	Anesthesiology	Simulation Curriculum Development in Critical Care	Sarah McGee, MD, MPH
Fei Gu, MD, PhD	Medicine	Evaluation of tumor markers in metastatic lung cancer as predictive markers in treatment response and disease progression	Giles Whalen, MD
Ameer Ibrahim, MD, MS	Emergency Medicine	Association of Changes in Corrected Flow Time with Changes in Glomerular Filtration Rate	Max Rosen, MD, MPH
Nahida Islam, MBBS	Medicine	Outcomes of treatment of Double Hit Lymphoma at UMass	Hong Yu, PhD
Adib, Karam, MD	Radiology	Radiology reports: Recommendations for incidental findings on CT scan and/or MRI of the Abdomen and Pelvis	Dominic Nompleggi, MD, PhD
Jennifer LaFemina, MD	Surgery	Aspirin Use For Prevention of Pancreatic Cancer in High-Risk Cohorts	JeanMarie Houghton, MD, PhD
Uyen-Sa Nguyen, DSc, MPH	Orthopedics	Understanding & Quantifying the Risk Factor Paradox in Rheumatic Disease Research Smoking & Cardiovascular Events in People with Rheumatoid Arthritis	Kate Lapane, PhD
Abhay Patel, MD	Orthopedics	Senior Orthopaedic Attending Survey on 1st Year Attending Clinical Preparedness	Deborah DeMarco, MD
Muhammed Ramzan, MD	Neurology	Predictors of outcome in intracerebral hemorrhage	Amy Rosen, PhD

Participants, Projects, Mentors  
AY 2014 - 2015

Participant	Department	Project	Mentor
Jessica Simons, MD	Surgery	Development and Assessment of a Patient-Specific Preoperative Guide Prior to Leg Bypass Surgery	Kahtleen Mazor, EdD
Nancy Skehan, MD	Medicine	Discharging the Data: Evaluating the Usefulness and Usability of the Hospital Discharge Summary in Delivering Patient Care	Kate Burke, MD
Stacey Valentine, MD, MPH	Pediatrics	Evaluating Fluid Management in Pediatric Acute Respiratory Distress Syndrome (ARDS): A Pilot RCT	Stephen Heard, MD

**Participants, Projects, Mentors**  
**AY 2013 - 2014**

Participant	Department	Project	Mentor
Antonio Aponte-Feliciano, MD	Anesthesiology	Comparison of Moderate Sedation in Patients with and without Obstructive Sleep Apnea Undergoing Elective Colonoscopies	Robert Goldberg, PhD
Negar Beheshti, MD	Psychiatry	The Feasibility of Family Based Crisis Intervention for Acute Suicidal Adolescents	Ed Boureaux, MD
John Broach, MD, MPH, MBA	Emergency Medicine	The health effects of disasters on patients using home oxygen and other home therapies	Kristin Mattocks, PhD, MPH
Jennifer Davids, MD	Surgery	Individualizing chemotherapy for colorectal cancer using a humanized mouse model	JeanMarie Houghton, MD, PhD
Nicola DeAngelis, MD	Orthopedics	Development of a standardized curriculum for arthroscopic shoulder surgery	Mary Philbin, EdM
Maria Jose Duenas Decamp, PhD	Program in Molecular Medicine	Infection of Hematopoietic Stem/Progenitor cells implication for HIV-1 eradication	Sam Behar , MD, PhD
Mara Eptstein, ScD	Medicine	Cost consideration of repeated follow up ultrasounds for benign thyroid nodules	Kate Lapane, PhD
Michael Fahey, MD	Pediatrics	Understanding congenital heart defects	Oscar Starobin, MD
Penny Feldman, MD	Pediatrics	Should infants with Down Syndrome be screened more frequently for thyroid dysfunction?	Neil Aronin, MD
Anne Garrison, MD	Obstetrics & Gynecology	Innovations in advancing research and educational scholarship for clinical faculty	Deb DeMarco, MD
Richard Goddeau, DO	Neurology	The relationship between ischemic stroke, infection, and clinical outcome	Joel Gore, MD
Rashelle Hayes, PhD	Medicine	Development and use of health technology to engage and sustain smoking cessation treatment	Ed Boyer, MD, PhD
Kimberly Larson, JD, PhD	Psychiatry	Juvenile Competence to Stand Trial Evaluation and Remediation Services: A National State Survey	Carole Upshur, EdD
Mary Medeiros, MD, MPH	Medicine	Reduction of Emergency Department boarding time using Lean principles	Lori Pelletier, PhD, MBA
Ashling O'Connor, MD	Surgery	The Role of Osteoporosis in the Development of Bone Metastases in Breast Cancer	Hong Yu, PhD
Donna Perry, PhD, RN	Graduate School of Nursing	Nonviolent empowerment for health equity	Saki Santorelli, EdD

**Participants, Projects, Mentors**  
**AY 2013 - 2014**

<b>Participant</b>	<b>Department</b>	<b>Project</b>	<b>Mentor</b>
Robert Ian Richmond, MD	Anesthesiology	Post anesthesia care unit resident online resource	Sue Gagliardi, PhD
Sneha Shah, MD	Emergency Medicine	Evaluating the implementation of an interprofessional Team STEPPS curriculum for medical students using high fidelity simulation	Sarah McGee, MD, MPH

**Participants, Projects Mentors  
AY 2012 - 2013**

Participant	Department	Project	Mentor	Department
Francesco Aiello, MD	Surgery	Outcomes Reported by the Vascular Quality Initiative (VQI) and the National Surgical Quality Improvement Program (NSQIP) are not Comparable	Amy Rosen, PhD	Medicine
Shashi Bala, PhD	Medicine	Weight concerns as a Barrier to Smoking Cessation in Patients with Schizophrenia	Victor Ambros, PhD	Orthopedics
Felicia Chu, MD	Neurology	Screening of Mood Disorders in Epilepsy Clinic	Tony Rothschild, MD	Psychiatry
Nina Deng, EdD	Quatitative Health Sciences	Measuring Vitality in Patient-Reported Outcomes Using Multidimensional Item Re	Kathleen Mazor, EdD	Quantitative Health Sciences
David Fish, MD	Pediatrics / Medicine	Improving Transition in Patients with Chronic Illness	Robert Goldberg, PhD	Surgery
Nivedita Gour, MBBS	Medicine	Project KAPP: Knowledge, Attitudes and Practices Among Primary Care Providers in Weight Management	Judy Ockene, PhD, MEd, MA	Medicine
Shirin Haddady, MD, MPH	Medicine	Cost consideration of repeated follow up ultrasounds for benign thyroid nodules	Giles Whalen, MD	Neurology
Amy Harrington, MD	Psychiatry	Weight concerns as a Barrier to Smoking Cessation in Patients with Schizophrenia	Sherry Pagoto, PhD	Family Medicine & Community Health
Catherine James, MD	Pediatrics	An Online Curriculum for the Pediatric Emergency Medicine Rotation	Mary Zanetti, EdD	Medicine
David Kane, MD	Medicine	Chest Pain Standardized Clinical Assessment and Managaement Plan (SCAMP) in our Pediatric Emergency Department	Fred Anderson, PhD	Program in Molecular Medicine
David McManus, MD	Medicine	Atrial fibrillation detection using a mobile phone	David Harlan, MD	Quantitative Health Sciences
Michelle Mendoza, MD	Emergency Medicine	A Retrospective Review of Effects of a Multi-Component Educational Intervention in Emergency Ultrasonography on Practicing Attending Physicians	Patricia Franklin, MD, MBA, MPH	Medicine
Christian Mueller, PhD, MSCI	Pediatrics / Gene Therapy	miR-1's Role in Alpha-1 Antitrypsin (AAT) Liver Disease	Gyongyi Szabo, MD, PhD	Quantitative Health Sciences
Gordon Ogembo, PhD	Medicine	Epstein-Barr Virus-like Particle Based Vaccine	William Thomas, PhD	Quantitative Health Sciences
Reshma Parikh, MBBS	Obstetrics & Gynecology	Timing of Pregnancy After Bariatric Surgery	Lori Pbert, PhD	Medicine
Kenneth Peterson, PhD, MA, MSc	Graduate School of Nursing	Through the Nurses' Eyes: Evolving the culture for the Delivery of Patient and Family-Centered Care	Barry Saver, MD, MPH	Cancer Biology

Participants, Projects Mentors  
AY 2012 - 2013

Participant	Department	Project	Mentor	Department
Syed Quadri, MD	Surgery	Lung Cancer Care At UMass - Optimizing Clinical Outcomes & Costs	Andrew Evens, DO	Graduate School of Nursing
Banu Sundar, MD	Neurology	Developing a Case-Based Curriculum for Acute Headache	Susan Gagliardi, PhD	Quantitative Health Sciences
Rosalie Torres Stone, PhD	Psychiatry	Historias de Pacientes Para Detenter el Cáncer de Colon: Patient Stories to Stop Colorectal Cancer	Mary Costanza, MD	Medicine
Rebecca Zanconato, MD	Anesthesiology	Discrepancies in Perceptions of Intra-operative Teaching and Learning	Anne Larkin, MD	Program in Molecular Medicine

**Participants, Projects Mentors**  
**AY 2011 - 2012**

Participant	Department	Project	Mentor	Department
Mary Ahn, MD	Psychiatry	Development of a Training Toolkit in Play Psychotherapy for Residency Programs	Kathleen Mazor, EdD	Medicine
Karim Alavi, MD, MPH	Surgery	Using Storytelling to Reduce Under-treatment of Colorectal Cancer in Vulnerable Populations	Patricia Franklin, MD, MBA, MPH	Orthopedics
Rana Badr, MD	Anesthesiology	Web-based Cardiac anesthesia Curriculum Development	Sheldon Benjamin, MD	Psychiatry
Donald Baril, MD	Surgery	Trends in acute limb ischemia in the Medicare population	Allison Rosen, PhD, MPH, ScD	Quantitative Health Sciences
Erin Barlow, MD	Obstetrics & Gynecology	Development of an Integrated Curriculum in Pediatric and Adolescent Gynecology	Anne Larkin, MD	Surgery
Daryl Bosco, PhD	Neurology	Implementation of translational research project in the Bosco lab	Neil Aronin, MD	Medicine
Ninfa Candela, MD	Pediatrics	Sleep Disturbances and their Relationship to Pediatric Inflammatory Bowel Disease	David Paydarfar, MD	Neurology
Hua (Julia) Fang, PhD	Quantitative Health Sciences	Study Heterogeneity of Treatment Effect (HTE) on Smoking Related Outcomes	Joseph DiFranza, MD	Family Medicine & Community Health
Umar Khan, MBBS	Medicine	Advanced Echocardiography for Quantification of Right Ventricular Functions in Pulmonary Embolism and Inferior Myocardial Infarction	Dennis Tighe, MD	Medicine
Hemant Khanna, PhD	Ophthalmology	Write a grant proposal on understanding the mode of retinal degeneration due to defects in the transport of proteins in photoreceptors	Stephen Doxsey, PhD	Program in Molecular Medicine
Wendy Marsh, MD, MS	Psychiatry	Research Development Plan: Selective Estrogen Receptor Modulator as Adjunct Treatment for Perimenopausal Depression	Jeraoan Allison, MD, MS	Quantitative Health Sciences
Nancy Morris, PhD, ANP-BC	Graduate School of Nursing	Improving Medication Inhaler Technique Among Adults with COPD	Lori Pbert, PhD	Medicine
Susanne Muehlschlegel, MD, MPH	Neurology	ICU complications and their impact on outcome in moderate-severe traumatic brain injury	Robert Goldberg, PhD	Quantitative Health Sciences
Danielle Patterson, MD	Obstetrics & Gynecology	Creating a pelvic organ prolapse utility scale	John Ware, PhD	Quantitative Health Sciences
Anne Powell, MD	Pediatrics	Development of an Online Curriculum on Pediatric and Adolescent Gynecology for Pediatric Residents	Melissa Fischer, MD	Medicine
Claudio Punzo, PhD	Ophthalmology	Writing of a R01 grant for the NEI on the role of "mTOR in photoreceptor metabolism and disease	Eric Baehrecke, PhD	Cancer Biology

Participants, Projects Mentors  
AY 2011 - 2012

Participant	Department	Project	Mentor	Department
Muthalagu Ramanathan, MBBS	Medicine	Evaluate the efficacy and tolerability of post autologous stem cell transpant Cyclophosphamide in patients with Multiple Myeloma	Sheila Noon, PhD, RN	Graduate School of Nursing
Yousaf Shaikh, MBBS	Medicine	Non-Physician Providers at UMass Hospitalist Program, Perception & Challenges	Arlene Ash, PhD	Quantitative Health Sciences
Spiro Spanakis, DO	Anesthesiology	Simulation and Anesthesiology Crisis Resource Management	Sarah McGee, MD, MPH	Medicine
Gisela Velez, MD, MPH, MA	Ophthalmology	Müller Cell Behavior and role in Proliferative Vitreoentinopathy	Greg Pazour, PhD	Program in Molecular Medicine

**Participants, Projects Mentors  
AY 2010 - 2011**

Participant	Department	Project	Mentor	Department
Milena Anatchkova, PhD	Quantitative Health Sciences	Grant proposal development: Validation of a social and role functioning CAT	Carol Upshur, MEd	Family Medicine & Community Health
Nancy Byatt, DO, MBA	Psychiatry	Perinatal Mental Illnes: OB/Gyn's Perspective on How Barriers to Treatment Be O	Jeroan Allison, MD	Quantitative Health Sciences
Raphael Carandang, MD	Neurology	Genetic determinants of post-traumatic cerebral edema: A pilot study	Rob Goldberg, PhD	Quantitative Health Sciences
Keith Cauley, MD, PhD	Radiology	Quantitative Magnetic Resonance Biomarkers of Amyotrophic Lateral Sclerosis	Lori Pbert, PhD	Medicine
Jan CernyMD, PhD	Medicine	Targeting Leukemic Stem Cells in Patients with chronic Myeloid Ludekmia- Development of Study Protocols	Sheila Noone, PhD	Graduate School of Nursing
Neena Gupta, MD	Pediatrics	Sleep disorders in patients with kidney diseases and hypertension	Jerry Aurigemma, MD	Medicine
Gang Han, PhD	Biochemistry & Molecular Pharmacology	Imaging-guided gene delivery using upconverting nanoparticles	Alexi Bogdanov, PhD	Radiology
Olga Hardy, MD	Pediatrics	Role of Inflammatory Monocytes in Adolescent Metabolic Syndrome	Jason Kim, PhD	Program in Molecular Medicine
Sarah Hughes, MD	Obstetrics & Gynecology	Peripheral Neuropathy in Genecologic Oncology Patients	Alan Rosmarin, MD	Medicine
Diana Kouznetsov, MD	Anesthesiology	Anti-inflammatory properties of Ketamine in patients undergoing heart surgery with cardiopulmonary bypass	John Kearny, MD	Medicine
Elizabeth Kurian, MD	Pathology	Direct Comparison of Cervista HR versus Hybrid Capture 2 HPV assays in Women with Negative Pap Smears	Jason Chen, PhD	Medicine
David Magit, MD	Orthopedics	Evaluation of glenohumeral translation in the immature thrower	Patricia Franklin, MD	Orthopedics
Benjamin Nwosu, MD	Pediatrics	Vitamin D Supplementation to Reduce Weight gain in Children with Bipolar Disor	Neil Aronin, MD	Medicine
Christopher Owens, MD	Pathology	The Utility of ThinPrepR in Thyroid FNA	Michael Blute, MD	Surgery
Randall Pellish, MD	Medicine	Success of Medical Therapies on Surgical Rates in Proximal Small Bowel Crohn's Disease	Dave Cave, MD	Medicine
Julie Pilitsis, MD, PhD	Surgery	Prospetive study of a communication initiative in a neurosurgical OR	Arlene Ash, PhD	Quantitative Health Sciences
Christina Runyan, PhD	Family Medicine & Community Health	Chronic Pain and Posttraumatic Stress Disorder in Primary Care		

Participants, Projects Mentors  
AY 2010 - 2011

Participant	Department	Project	Mentor	Department
Rajani Sadasivam, PhD	Quantitative Health Sciences	Planning for a Career Development (K) Proposal: Reframing Computer Tailoring (CT) as an Information Retrieval Problem	Stephanie Lemon, PhD	Medicine
Jyoti Saini, MD	Obstetrics & Gynecology	Anterior Colporrhaphy: a randomized trial comparing two surgical techniques	Jennifer Tseng, MD	Surgery
Heena Santry, MD	Surgery	Predictors of Limitations of Care Orders in Critically Injured Patients	Catarina Kiefe, PhD, MD	Quantitative Health Sciences
