WELCOME	<p>Dr. Douglas Ziedonis welcomed everyone and acknowledged the UMASS MEDICAL SCHOOL & UMASS MEMORIAL EMPLOYEES who have reached milestones of employment service.</p> <p>The UMass Memorial Employee Service Award ceremony took place on Tuesday, May 11th at Pleasant Valley Country Club</p> <p>The UMass Medical School Employee Service Award ceremony takes place on Monday, June 7th on the Campus Green at 5:00pm (see below under Employee Service Awards, for complete listing of employees)</p>	

PRESENTATIONS	<p>Dr. Ziedonis introduced and welcomed Deborah Plummer, PhD, Vice Chancellor of Diversity and Equal Opportunity. Dr. Plummer recently joined UMass Medical School from the Cleveland Clinic where she was Chief Diversity Officer and increased the pool of underrepresented candidates for management and faculty positions. Since her arrival here, she has been listening and assessing the diversity climate at UMASS and has found lots of energy for diversity and inclusion. Her intent is to harness and build upon what's already here. Her presentation today "Diversity and Inclusion at UMass," reflected her lead and efforts to continue to build a culturally competent and diverse workforce by moving beyond compliance to creating a culture built on the core values of civility, respect, and valuing diversity of thought and expression. A complete copy of her presentation is available upon request.</p> <p>Dr. Ziedonis introduced and welcomed Michele P. Pugnaire, MD, Senior Associate Dean for Educational Affairs. Dr. Pugnaire introduced Brian Sweeney, MD, Associate Director, Surgical and Procedural Simulation and Melinda Taylor, BS, Senior Engineer, two key personnel in the CENTER FOR EXPERIENTIAL LEARNING AND SIMULATIONS (CELS) Simulation Planning for Albert Sherman Center. The purpose of Dr. Pugnaire's presentation today was to get the word out to the department to engage the opinion leaders as well as a designated key contact from the department for further follow-up and to be part of the CELS program planning process. Dr. Ziedonis designated <u>Sheldon Benjamin, MD</u> as the point person for this initiative within the Department of Psychiatry.</p> <p>Dr Pugnaire's presentation outlined some of the technology and innovation that will be available in the CELS to meet the overall needs of our academic health sciences center and its education mission for the benefit of our faculty, learners, staff, patients and our community. Several ideas were voiced as to possible simulation scenarios specific to Psychiatry. Dr. Pugnaire invited anyone with ideas and suggestions to bring them to the User's Meetings. She encouraged a visit to the website http://www.umassmed.edu/simcenter/CELSHomepage.aspx for more information about CELS planning, upcoming meetings, to complete their survey, or to contact any member of the CPO outreach team. Your ideas and input will be critical to the success of the CELS program.</p>	
ANNOUNCEMENTS	<p>Dr. Jean Frazier announces that Negar Beheshti, MD, has assumed the role of Assistant Director for Child and Adolescent Psychiatry.</p> <p>In addition, Dr. Frazier described the customized employment training study at the University of Massachusetts Medical School offering paid internships at various worksites within the medical school for young adults with Asperger's Disorder, who have little to no work experience. With the help of UMASS staff, through on-site employment supports, study participants will focus on acquiring the skills and knowledge needed to obtain employment in the competitive workforce. The CANDI Lab is looking for persons willing to offer a work site along with supervision for this project. If you are interested in this work model initiative or have an opening, please contact Martha Castro, Child and Adolescent NeuroDevelopment Initiative: Phone:</p>
