

Announcing a medical research study for people with depression.

If you are currently depressed and not taking an antidepressant, you may qualify for a medical research study to determine the effectiveness and safety of an investigational medication for Major Depressive Disorder. If you qualify, you'll receive investigational study medication, study-related medical exams and lab tests at no charge. Financial compensation for time and travel is available.

For more information or to see if you may qualify, please call:
