

# WHEN CONDOMS AREN'T "COOL"...

**HOW TO TALK TO YOUR PARTNER AND  
PROTECT YOU BOTH FROM INFECTION.**

I'm on the pill. We don't need a condom.

Let's use it anyway. We'll both be protected from infections we may not know we have.

Condoms are so fake! They turn me off.

An infection isn't so great either. Let's try it. Or maybe we can try

Just this once.

Once is all it takes.

Well, I don't have a condom with me....

I do.

I'm a virgin

I'm not. This way we'll both be protected.

I won't have sex if you're going to use a condom.

So, let's put it off until we can agree or try some other things besides

I can't feel a thing when I'm wearing a condom. It's like wearing a raincoat in the shower.

You'll still feel enough! Let's just try it.

By the time you put that on, I won't be in the mood.

If we really feel for each other, we should be able to stay in the mood.

I love you! Would I give you an infection?

You wouldn't mean to, but you can have one without knowing it. So could I. Better safe than sorry for both of us.
