Grants and Contracts

1997-2001

Managed Care Effects on Arrest and Forensic Commitment National Institute of Mental Health. 1 RO1 MH53179, \$404,518. Co-Investigator with William Fisher. The goals of this study are to determine if there was an increase in the risk of criminal justice and forensic system involvement for persons with severe mental illness following the implementation of Medicaid managed mental health care.

2003-2006

Modeling Criminal Justice Involvement Among Persons with Mental Illness National Institute of Mental Health. 1RO1 MH065611-01A1, \$625,000. Co-Investigator with William Fisher. The goal of this study is to gain an understanding of the criminal career trajectories of persons with mental illness and to compare these trajectories to known criminological data on the career trajectories of a population of offenders without mental illness and to study the impact of service delivery on the patterns of offending.

2004-2007

Arrest Patterns Among Youth in Mental Health Systems National Institute of Mental Health 1RO1 MH067862, \$450,000. Co-Investigator with Maryann Davis. This project examines patterns of juvenile and adult criminal offending of youths identified as receiving services from the Massachusetts Department of Mental Health's as children/adolescents and who "aged out" of that system.

2002-
