# **Young Adult Suboxone Study**

## **Research Study**

A Research Team at the  
University of Massachusetts  
Medical School is looking  
for individuals who want  
help with their addiction!

Docket # H-13261

## Suboxone Research Study

### Are you motivated to get help for Opioid Addiction?

We are currently inviting individuals with opioid addiction to participate in a new research study.

Our goal is to develop a new medication treatment that may help young people with opioid addiction.

### You may be eligible to participate if:

- You are currently a heroin, opiate, oxycontin, or other opioid user
- You are between the ages of 18 and 25
- You are not currently being treated for a serious medical or psychiatric illness
- You are not dependent on any other substances besides opiates or tobacco

### What Does it Mean to Participate?

- You will have regular assessments with study doctors and research staff
- You will receive Cognitive Behavioral Therapy counseling
- You will receive Suboxone and study medication

### Participation is Voluntary:

Your decision about participating in this study is completely up to you. When you call, we will give you all the information you need to decide about participation.

You may choose not to participate at the very beginning, or at any time along the way. Your decision will never affect any services you receive now or in the future.

**Please call to learn more about the study:**
