What is the business case for your translational science?

Find out via the I-Corps@NCATS Regional Short Course. Based on the National Science Foundation’s Innovation Corps (I-Corps™) program, the premier federally-funded innovation and commercialization training in the U.S., I-Corps@NCATS provides biomedical scientists, clinician scientists and engineers with a new approach to accelerate the translation of discoveries from the lab to clinical practice.

WHO: Teams of faculty, postdocs and/or students with biomedical innovations or ideas.

WHAT: The five-week I-Corps@NCATS Regional Short Course will help you connect with potential customers for your research projects, protocol, service, or prototype.

WHY:  
- Determine the commercial viability of your innovation.  
- Develop a successful business case for securing funding.  
- Expand your network of innovation partners, mentors, and potential collaborators.  
- Develop a new way of thinking about your research.

REGISTER: Sign your team up by Monday, September 30, 2019.

Program:
Kick-off Workshop - October 25, 2019 (in person), 9am-4pm
Week 2 - 30-minute online office hours w/teaching teams (flex timing)
Week 3 - November 8, 2019, 2-hour webinar (must attend online) 10am-1pm
Week 4 - 30-minute online office hours w/teaching teams (flex timing)
Week 5 - November 22, 2019 (in person), 9am-2pm
