Crisis Intervention & Risk Management Trainings

Consumer Staff

James McDonald provides a unique training experience for police officers, fire fighters, and other first responders by sharing his personal professional baseball career. Jim’s presentations have consistently

Dissemination

Mental Health Training Approaches

Mental Health Consumer Involvement

Back to USC and MMHDIP annual reports back to Jim’s presentations have consistently delivered a compelling message: addressing the signs and symptoms of mental illness at the point of arrest is critical to the success and well-being of the individual and community. Jim’s message has been well received and is recognized for its impact on the efforts to reduce the Criminalization of the Mentally Ill
