PERSPECTIVES

Scaling Up Evidence-Based Practices in Contraceptive Access Initiatives

Birth Control, Contraception

Supplement 5 2022 Reshaping Contraceptive Access Efforts By Centering Equity, Justice, and Autonomy

This *AJPH* special issue highlights research and perspectives on contraceptive access efforts. In addition to statewide initiatives, the issue also features articles on telehealth, community connections, scaling up evidence-based practices, evaluating initiative methodologies, and more.

Funding statement: This work was supported by a grant from an anonymous foundation.

The *American Journal of Public Health (AJPH)* is dedicated to the publication of original work in research, research methods, and program evaluation in the field of public health. The mission of the journal is to advance public health research, policy, practice, and education.

Effect of Intraoperative Handovers of Anesthesia Care on Mortality, Readmission, or Postoperative Complications Among Adults: The HandiCAP Randomized Clinical Trial

Melanie Meersch, MD; Raphael Weiss, MD; Mira Küllmar, MD; et al.

[Abstract](#) | [Full Text](#)

JAMA. 2022;327(24):2403-2412. doi:10.1001/jama.2022.9451

This randomized trial tested whether intraoperative handovers of care from one clinician to another compared with no handover affected a postoperative composite of all-cause mortality, hospital readmission, and serious complications.
