MassHealth 3.0: Accountable Care Organizations and Value Based Payments

Thomas Carroll, Ruo Chen, August Felix, Lindsay McCormack, Saharsh Mehta, David Peters, John Roubil, Joseph Shortsleeve

University of Massachusetts Medical School, Population Health Clerkship
Faculty Leaders: Jay Himmelstein, MD, MPH, Doug Brown JD, Michael Chin, MD, and Jean Foran

MA Universal Coverage Threatened By Increasing Costs

Unprecedented costs of care are threatening MA's universal coverage.

Possible Solution: Accountable Care Organizations (ACOs)

- A team of health providers and coworkers who provide highly coordinated care with the goal of keeping patients healthy.

Who is an ACO?

- A capitated group of providers, often of different specialties, that coordinate care for a defined population.
- They are accountable for both the quality and cost of care.

What is the goal of an ACO?

- To reduce costs and improve quality of care.
- To hold providers accountable for the outcomes of care they provide.

Health and Social Spending as a Percentage of GDP

- Over the past decade, health spending has outpaced GDP growth.
- Social determinants of health, such as education and income, have a significant impact on health outcomes.

Why does Health Care cost so much?

- Inadequate investment in Social Determinants of Health
- Why does Health Care cost so much?

Why does Health Care cost so much?
