Surviving (Happily) My Career in Science

*10 Commandments for
Negotiating Work and Life*

Joanne
Kamens,
PhD

***How do you balance the demands of a career in
scientific research with the demands of home
and family life?***

Dr. Joanne Kamens has provided career development and work-life balance advice to hundreds of groups and individuals and has been actively mentoring young scientists for most of her career. She will discuss setting priorities, effective time management skills, and other strategies to achieve satisfaction and happiness at both home and at work.

Dr. Kamens is Senior Director of Research Collaborations for Rxi Pharmaceuticals. She founded and is active in numerous mentoring organizations. She lives locally with her husband, a rocket scientist, and their two teenage children.

Monday, February 8, 2010
