BS to DNP & Pre Graduate Option to DNP

The University of Massachusetts Medical School (UMMS) is the commonwealth's first and only public academic health sciences center and consists of 3 schools. This association provides for a rich interprofessional environment for learning and practice experiences.

The focus of the UMMS GSN Doctorate of Nursing Practice (DNP) program is to prepare graduates as nurse practitioners in leadership roles. The curriculum is designed to educate students to improve and transform health care through advanced clinical knowledge, research translation, and systems leadership.
