Earth day in a pandemic

Moment of silence for people impacted by the pandemic.

We hope you and your communities are staying healthy and hopeful. We will move through this pandemic eventually and there will be a new normal.

One thing we know is that the issue of global climate change will continue as one of the most pressing issues of our time and we all have a role to play.

Goals with today's lunch and learn

By the end of this webinar we will have had the opportunity to learn about EV-ownership.

Meet your Drivers

- ▶ Rich Legault: Nissan Leaf driver
- ▶ Jackie Satlow: Chevrolet Bolt driver
- ▶ Jamie Jacquart: Tesla Model S driver

Today's Questions

- ▶ What make and model you chose to buy and why?
- ▶ Where do you primarily charge your EV and at what expense?
- ▶ What discounts were available to you (federal, state) and did this matter if you purchased or leased?
- ▶ What have been your repair / maintenance expenses?
- ▶ How do you charge when you go on a longer trip?
- ▶ Have you ever run out of juice?
