

University of Massachusetts

PeopleSoft HCM 9.0 & IdM Minimum

Software Requirements

• Amherst • Boston • Dartmouth • Lowell • President's Office • Worcester •

The tables below indicate the minimum software versions supported by UITS for PeopleSoft HCM 9.0, Identity Management (IdM) and UPK online training. These are recommended minimum requirements. Newer versions of the software listed will be supported only when they have been certified by PeopleSoft/Oracle and IDM.

Employee Self Service Minimum

| os | Browser |
|------------------------------------|------------------------------|
| Windows | Internet Explorer 6 SP2 |
| Windows | Firefox 2.x |
| Mac | Safari 3.x |
| Mac | Firefox 2.x (See Note Below) |
| Supporting Software | Version |
| PDF Documents (e.g. view paycheck) | Adobe Reader 6 |

Resolution: Minimum resolution of 800 x 600

Internet Speed: 56K modem with Internet access

JavaScript: EnabledCookies: Enabled

Important: Known Firefox Security Concern

UITS recommends that Mac users utilize the Safari Browser. When viewing a pay advice, Firefox downloads a copy of the pay advice to the computer an employee uses to view the Pay Advice. This recommendation is especially important in relation to shared Mac computers (i.e., computer labs).

Central Office & Managers Minimum

| os | Browser |
|------------------------------------|-------------------------|
| Windows | Internet Explorer 6 SP2 |
| Windows | Firefox 2.x |
| Mac | Safari 3.x |
| Mac | Firefox 2.x |
| Supporting Software | Version |
| MS Office for windows | 2003 |
| MS Office for Mac | 2004 |
| PDF Documents (e.g. view paycheck) | Adobe Reader 6 |

Resolution: Minimum resolution of 800 x 600

Internet Speed: 56K modem with Internet access

JavaScript: Enabled Cookies: Enabled

UMass Productivity Kit (UPK) Requirements

The UPK provides users with training support materials:

- UPK is supported in Safari 4.0+
- UPK "Do it" mode is supported in Firefox 3.5+

University of Massachusetts

PeopleSoft HCM 9.0 & IdM Minimum

Software Requirements

• Amherst • Boston • Dartmouth • Lowell • President's Office • Worcester •

Pop-Up Blocker

As the University moves to version 9.0, UPK, and web functions within and associated with the HCM Application will be impacted by the browsers pop-up blocker. It is suggested that the local desktop environment be configured to allow for pop-ups in these cases.
