

Respondus LockDown Browser

Installing/Updating Lockdown Browser

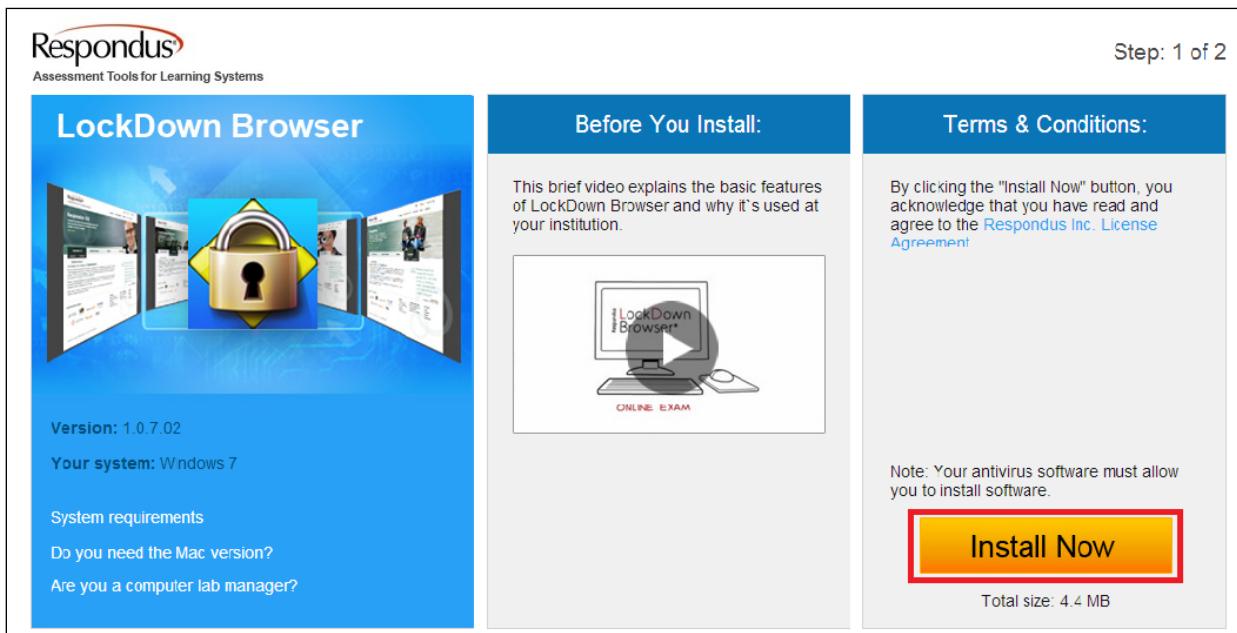

Respondus LockDown Browser is a customized, secure browser that increases the security of online testing in learning management systems like Blackboard. It is a stand-alone application that must be installed on each computer being used to take an online test.

Installation

Follow the instructions below to install the Windows or Mac version of Respondus LockDown Browser.

Note: If you already have LockDown Browser installed on your computer but need to check for an update, please see the **Updating to the Latest Version** section below.

1. Click on the **UMMS LockDown Browser Installer** link to begin the **Respondus LockDown Browser** download process: <http://www.respondus.com/lockdown/information.pl?ID=948736164>.
2. On the **Respondus LockDown Browser Installation** page, click **Install Now**.

Step: 1 of 2

LockDown Browser

Version: 1.0.7.02

Your system: Windows 7

System requirements

Do you need the Mac version?

Are you a computer lab manager?

Before You Install:

This brief video explains the basic features of LockDown Browser and why it's used at your institution.

Terms & Conditions:

By clicking the "Install Now" button, you acknowledge that you have read and agree to the [Respondus Inc. License Agreement](#)

Note: Your antivirus software must allow you to install software.

Install Now

Total size: 4.4 MB

3. You will be prompted to **Run** or **Save** an .exe file (Windows) or .zip file (Mac). Click **Run** (Windows) or double-click the .pkg file (Mac), and follow the prompts to install LockDown Browser.

Note: The **Run** option may function differently depending on the platform and browser you are using.

Step: 2 of 2

LockDown Browser

Version: 1.0.7.00

Your system: Windows 7

System requirements

Do you want to run or save LockDownSFX-107-00.exe from respondus7.com?

This type of file could harm your computer.

Run Save Cancel

4. Click the **Finish** button to complete the installation. Be sure to close the installation window after the software has been installed.

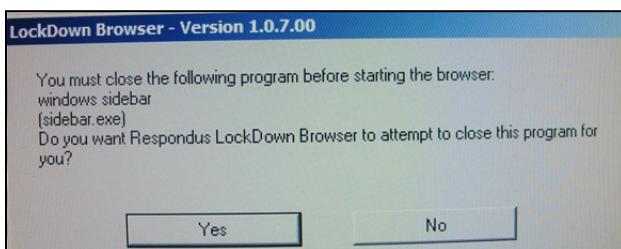

Updating to the Latest Version

You should be automatically prompted to check for Respondus LockDown Browser updates once you have it installed. To check for the latest version manually, follow these steps:

1. Start the Respondus LockDown Browser application. The icon will be located on your desktop after installation.

Note: All screens must be closed before the lockdown browser will open. Should you receive the following

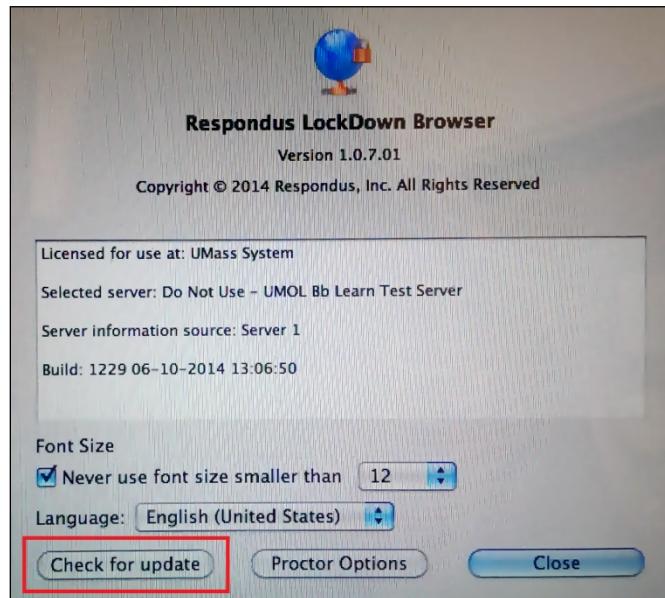

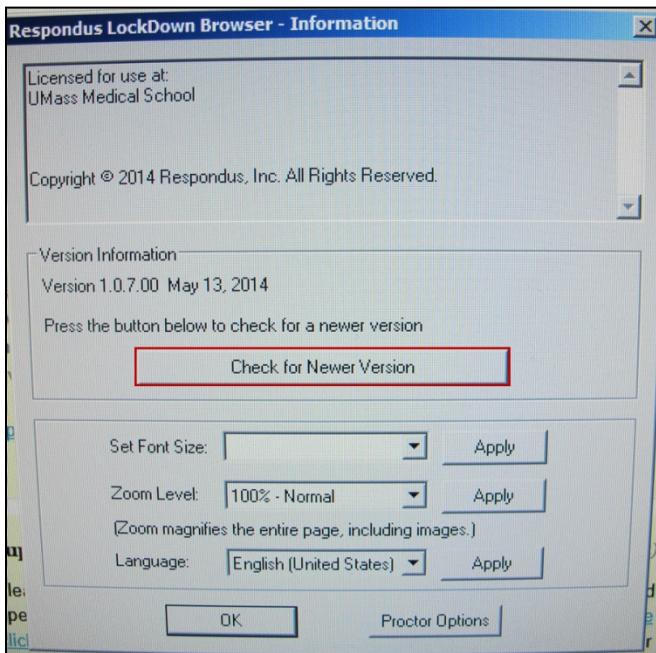

message, close out of all open windows and try again.

2. Select **i** from the toolbar (Windows) or **About** (Mac).

3. Select **Check for Newer Version** (PC) or **Check for update** (Mac).

4. Follow the on-screen instructions to download and run the update.
