

## Blackboard Learn

### Finding and Accessing Courses Through the My Courses Module

As a result of the SP 14 upgrade, the **My Courses** module now shows the first **99** courses you are enrolled in. To access any that are not showing in your list, scroll to the bottom of your list of courses and click **more courses...→**.

**Note:** Please be sure you are using Chrome, IE 10, Firefox 30, or another Bb Learn-supported browser.

1. In the **Browse My Courses** window, search for Courses by selecting either **ID** or **Name**.
2. Make sure the next drop-down is set to **Contains**, and then type in the course number (if **ID**) or part of the course name (if **Name**).
3. Leave the other fields set as is, including the **Browse Terms** drop-down menu.
4. Click **Go**.

To narrow your search further, if you know your role in the desired course, select it from the **AND Role Equals** drop-down menu.

Once the results are returned, click on the appropriate course link to navigate to the course:
