**Viewing Course Lecture Captures**

1. To start the Lecture Capture click **Play** to begin the lecture.
2. Click **Scenes** to browse the lecture using scene-based navigation.

3. Use the **Scroll Bar** to navigate through the scenes.
Notes:
Lectures can be captured, but not start at **Scene 1**. For example, this lecture starts at scene 4. Clicking on the **Scene** you would like to view will begin playback at that location.

4. Click on **Scene 4** to start playback at beginning of the lecture.

5. Use the **Speed Slider** to alter the speed of the recording.
When viewing on a web browser: hover over the speed icon. It will open to reveal a slider to adjust the speed up or down.

**Note:** the video window stops working when the speed is other than 1.0. Only content shows while the audio plays at a different speed.

**Notes:**

Using the **Toggle Menu** will allow you to switch different views.

The **Timeline** allows you to move forward, back or pause a lecture as needed.
