Your Link to Online Teaching and Learning

Our in-house team supports a wide spectrum of technologies that are integral to the University's educational and research mission. The technologies within our portfolio support our virtual global class- room environments by enhancing online curriculum and teaching methods, and expanding our learner audience. Our training programs contribute to the development of the healthcare workforce of the future.

Our team offers subject matter expertise in information and instructional design, multimedia development and effectively merging technology and teaching and learning.

LEARNING MANAGEMENT SYSTEMS

The two learning management systems we support – Blackboard Learn and Adobe Connect – enhance the UMMS educational experience by giving students and faculty opportunities for staying engaged, both inside and outside of the classroom.

INSTRUCTIONAL DESIGN

We have a team of experts that provide consultation to you on how to organize and present your course content, and how to choose the best teaching tools to take your instruction to the next level.

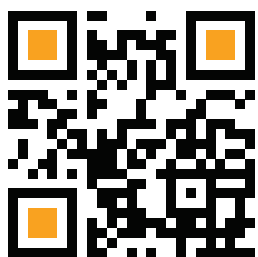

POLLING TECHNOLOGIES

Turn your PowerPoint lectures into dynamic interactive presentations with our polling technologies. You will be amazed by the real-time feedback and how engaged your students are in the classroom.

ONLINE MEETING TOOLS

Reach out to your learners, no matter where they are in the world with Adobe Connect Web Meetings and GoToMeeting. Let us assist you in choosing the best tool!
