Dual Degree Program

Interested in making
the “business of
medicine” better?

Thinking about a
startup?

Intrigued by the
intersection of business
and science?

In partnership with UMass Lowell

CONSIDER PURSUING A MASTER OF BUSINESS ADMINISTRATION WHILE YOU'RE ENROLLED AT UMMS!

A new dual degree MBA program is available to all students accepted to a UMMS graduate school—the School of Medicine, the Graduate School of Biomedical Sciences or the Graduate School of Nursing.

This highly respected, flexible and affordable program allows busy life sciences students to complete an MBA while at UMMS and still graduate on time. The program offers interprofessional, in-person coursework during summer sessions, with subsequent coursework online, so earning an MBA can fit seamlessly with the UMMS curriculum.

UMass Lowell's Robert J. Manning School of Business has a strong record of preparing students to be leaders in the rapidly changing and competitive global business environment. UMMS dual degree MBA students may choose to focus on finance, managerial leadership, information technology or health care.

A GMAT waiver is available for students who have taken the MCAT or the GRE. Students applying to the dual degree program must first be accepted to a UMMS graduate degree program.

Learn more about the UMass Medical School/UMass Lowell MBA dual degree program at <https://www.umassmed.edu/mba/> and <https://www.uml.edu/MSB/>.
