

# Actions taken in response to the faculty's feedback

1. Unfroze the grant funded positions (had only been held to allow the people being furloughed to have a shot )
2. Memo went out that Provost will grant tenure extensions for those faculty affected. (Provost discretion)
3. Startup for new faculty (FY23 and later) can be spent at \$250k per year plus equipment (not in the \$250k).
4. I worked with the key people in the international office and the office of management to flesh out a plan for the emergency contacts for green card and visa holders traveling.
5. Created info webpage with this and more and linked it out to the home page of the school.
