Research Administration Update
Wednesday, September 26, 2018
Lazare Auditorium (S1-607)
1:00 PM
September 25, 2018
Happy (belated) Research Administrator’s Day!!
Agenda

- Proposal Statistics
- FDP Updates
- Export Law and Espionage Conference
- OSP Updates
- “Sharing is Caring” - RPPRs
Statistics - Submissions to OSP by Type

<table>

Federal updates:

We are in a technology race with China!
September, 2018 Meeting Info can be found here:
http://thefdp.org/default/meetings/previous-meetings/september-2018-meeting/
China - #1 security concern (Russia, N. Korea)

- Stealing, hacking.
- Insider threat is the number 1 greatest concern.
  - 53% of industry had insider threats in 2017.
  - Responsible for 80% of stolen data.

Dark Web

- Anonymizing browser.
- Spam frequently comes from the dark web.

Exports

- What?
- Who is the intended vs. actual end user?
OSP Updates

• Staffing Changes

• Change of Business Structure.
  – One team.
  – One point of contact.
  – Portfolios.
Q: When will this change take place?
A: We are doing a “soft launch” now, though the effective date is 10/1/2018. Anything new is going to the point of contact or portfolio owner.

Q: Why are you making this change?
A: To provide a “one point of contact” approach. Also, to broaden and deepen expertise across all of OSP.

Q: Will this impact how I interact with OSP?
A: No. The only change will be that you have a go to person. All else is staying the same.

Q: Who will back up my point of contact when they are out of the office?
A: It will be communicated in advance, but essentially the back ups are by position: Josh/Jenna, Karen/Pam, Jim/Andrea, Eydie/Janice.

"Sharing is Caring" - RPPRs

NOT-OD-18-202

NIH Synchronizes Institutional Delegations

Allows Decimals in Effort Reporting Field
NOT-OD-18-202
NIH Synchronizes Institutional Delegations

NIH has modified the Interim and Final RPPR module within eRA Commons to automatically incorporate the same delegation options available to institutions within the annual RPPR.

Specifically, a PD/PI may delegate initiation of any type of RPPR, including the Interim and Final RPPR, to a program assistant.
NOT-OD-18-202
Allows Decimals in Effort Reporting Field

NIH has changed its RPPR format to allow effort being reported to include decimals.

Until now, the system only allowed whole numbers and rounded up or down accordingly.

PD/PIs contributing 20% effort or 2.4 calendar months, can now be entered accordingly. Previous system feature rounded effort down to 2 calendar months.
**Section D.1. Individuals who worked on the project:**
Should this section report on the individuals/staff from the past year of the project period or the whole project?

This section should report on the individuals/staff that worked on the project *during the last budget period* minus any approved no-cost extensions.
