PQHS NEWS

UPCOMING EVENT

Monday, March 20, 2023, at 12:00PM
Location: Faculty Conference Room
PQHS Annual State of the Department: All Students, Faculty and Staff are invited and encouraged to attend the PQHS Annual State of the Department meeting. Come hear all the exciting things happening in PQHS. Dean Flotte and Chancellor Collins will address the department. This is an in-person only event, zooming is not an option and will not be recorded. Slides will be provided following the meeting.
Lunch will be provided. Please click the link below to RSVP whether you plan to attend (yes or no). If you answer yes, a link is provided to add the event to your Outlook calendar. Please reply by Friday, March 3rd.

THIS WEEK IN PQHS & UMMS

Tuesday, February 7 – 9:00 – 10:00 AM
Research Meeting –
Presenter: Laël Nethania Ngangmeni, MBS, MD/PhD student (GS2), UMass Chan Medical School
Title: Rapid Turn-Around Qualitative Methods
Brief Description: Rapid qualitative assessment is used very often in the Department of Veterans Affairs (VA) because VA workers are always trying to introduce new interventions for various health conditions. To do that, baseline qualitative analyses must be conducted seeking information on the “why” and “how” of things. Then, what people tell us must be analyzed and a very quick turnaround is required to then implement policy and interventions. My presentation will demonstrate the use of rapid qualitative assessment.

WELCOME

Welcome to the Team! Kurt Hager received his PhD from Tufts University Friedman School of Nutrition Science and Policy in 2022 where he studied the effectiveness of nutrition policies on chronic disease prevention and management in the US. At UMass Medical School, he will assist in the evaluation of the MassHealth 1115 Demonstration Waiver with a focus on the Flexible Services program, which allows coverage of nutrition and housing programs for high-risk patients in Medicaid. In addition to his research, Kurt has pursued initiatives translating science to state and federal level policy, including work at the Center for Health Law and Policy Innovation at Harvard Law School, Aspen Institute, and the Task Force on Hunger, Nutrition, and Health. Please welcome Kurt to PQHS!
ANNOUNCEMENTS

February 6, 2023, at 1:45PM
GERONTOLOGY SPEAKER SERIES: “Racial/Ethnic Health Disparities Among Older Adults: The Role of Physically Demanding Work” presented by Sung S. Park, PhD. For more information contact Martin Hansen-Verma: martin.hansen@umb.edu
Click [link](#) to join Zoom Meeting. Password: Boston

February 8, 2023, at 11:15AM
GERONTOLOGY SPEAKER SERIES: “A Lifespan Approach to Studying the Diversity in Dementia Family Caregiving” presented by Francesca Falzarano, PhD. For more information contact Martin Hansen-Verma: martin.hansen@umb.edu
Click [link](#) to join Zoom Meeting. Password: Boston

February 8, 2023, at 1:30PM
GERONTOLOGY SPEAKER SERIES: “The Privilege of “Good Death”: Inequality & Disparity in End-of-Life Care & Planning” presented by Yifan Lou, PhD. For more information contact Martin Hansen-Verma: martin.hansen@umb.edu
Click [link](#) to join Zoom Meeting. Password: Boston

March 22, 2023, at 12PM
Special Seminar: “Improving Cancer Health Equity in Rural Settings through Participatory Implementation Science” presented by Melinda M. Davis, PhD, M.C.R., is Associate Professor in the Department of Family Medicine and OHSU-PSU School of Public Health, Interim Director of the Oregon Rural Practice-based Research Network and Co-Director of the OCTRI Community and Collaboration Core at Oregon Health & Science University (OHSU). Dr. Davis is a participatory implementation scientist who collaborates with patient, community, and health system partners to adapt and implement interventions to improve health equity in rural and low resourced settings. Dr. Davis conducts her work in ORPRN, often in partnership with the Community Health Advocacy and Research Alliance (CHARA), Oregon's Coordinated Care Organizations (CCOs), and other state and national partners. Dr. Davis leads a portfolio of research and technical assistance contracts funded by the National Cancer Institute, Agency for Healthcare Research and Quality, American Cancer Society, and National Institute of Minority Health & Health Disparities.
Click [link](#) to register for the webinar.
Separately, we will host Career Development Workshop with Dr. Davis for early-career researchers on March 23rd, 2023, from noon to 1 pm. Click [link](#) to register for the Workshop.
This workshop is mainly for early career researchers and junior faculty. However, anybody is welcome.
Monday, April 3, 2023, at 12 PM

Rigor and Reproducibility Seminar: “Sharing Confidential and Sensitive Data?” presented by George Alter, PhD, Research Professor Emeritus with the Institute for Social Research at the University of Michigan. Dr. Alter’s research integrates theory and methods from demography, economics, and family history with historical sources to understand demographic behaviors in the past. From 2007 to 2016, Alter was Director of the Inter-university Consortium for Political and Social Research, the world’s largest archive of social science data, and he is a past president of the Social Science History Association. He has been active in international efforts to promote research transparency, data sharing, and secure access to confidential research data. He is currently engaged in projects to create FAIR vocabularies in population research, to automate the capture of metadata from statistical analysis software, and to compare fertility transitions in contemporary and historical populations. This seminar is given jointly by the UMass Chan Medical School Population & Quantitative Health Sciences, and UMass Boston Gerontology Department and Gerontology Institute. Click this link to join the ZOOM presentation; password: 468880.

Postdoctoral Training is starting now and in August 2023. The PRACCTIS program (Prevention and Control of Cancer: Training for Change in Individuals and Systems) at UMass Chan Medical School is now accepting applications for postdoctoral scholars. Funding is available starting now and in August 2023 for fellowships in three specialty areas:

- Cancer Prevention and Control
- Health Communication
- Tobacco and Digital Health Research

We train independent researchers to address critical prevention and control care delivery issues across the cancer continuum, including primary prevention, screening, diagnosis, treatment and survivorship. Emphasis is on promoting change in individuals, providers and systems. Our faculty mentors are leaders in health equity and low resource settings, health behavior change, health informatics, systems change and health policy, health communications, population health sciences, implementation science, and prevention and intervention research. Applicants must plan to pursue an independent research career focused on cancer prevention and control, have earned a doctoral degree (PhD, ScD, MD, DO, etc.), and be a U.S. citizen or permanent resident. PRACCTIS is a T32 training program funded by NCI. For more information contact Barbara Estabrook.

Transdisciplinary Training in Cardiovascular Research T32 Training Program - now accepting applications for pre-and post-doctoral trainees. In collaboration with the Division of Cardiovascular Medicine, the Department of Population and Quantitative Health Sciences (PQHS) has established a NHLBI-funded T32 program with the aim of producing a new generation of investigators who have the enthusiasm, knowledge, and skills to make meaningful contributions to cardiovascular research across the translational spectrum. Directed by Catarina Kiefe, MD, PhD (PQHS) and Kevin Donahue, MD (Cardiovascular Medicine), the program is truly transdisciplinary, with investigators working together to expand knowledge beyond discipline-based concepts, theories, and methods. Please see the attached flyer for more information on eligibility and how to apply.

FUNDING REMINDERS

Revised NSF Biographical Sketch and Current and Pending (Other) Support Formats - Now Available in SciENcv and on the NSF Website: NSF implemented revised versions of the Biographical Sketch and Current and Pending (Other) Support formats for consistency with the Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 23-1). The requirement to use the revised formats is effective for proposals submitted or due on or after January 30, 2023. These revised formats are now available in SciENcv and on the NSF Policy Office website. As a reminder, the mandate to use SciENcv only for preparation of these senior personnel documents will go into effect for new proposals submitted or due on or after October 23, 2023.
Resources for the Data Management Sharing Plan: have posted information and guidance on the implementation of the Data Management Sharing Plan (DMSP) that goes into effect with the use of FORMS H for any application that is being submitted to the NIH on or after January 25th, 2023. Please go to the following link: https://umassmed.sharepoint.com/sites/gca/rms/SitePages/UMASS-Medical-School.aspx
The DMSP guides can be found in the lower right-hand side of the home page.

The Herman G. Berkman Diabetes Clinical Innovation Fund is accepting grant abstracts through February 28th. The annual award supports the development of clinical care initiatives that would not normally find funding through research grant programs. You’ll find the eligibility guidelines, grant application, and learn about past awarded projects HERE.

National Institute of Neurological Disorders and Stroke: Amyotrophic Lateral Sclerosis (ALS) Intermediate Patient Population Expanded Access (U01 Clinical Trial Required). NINDS intends to commit up to $75 million in FY 2023 to fund 3-5 awards in support of the conduct of scientific research utilizing data from expanded access for investigational drugs or biological products. These applications will target expanded access for intermediate size populations of patients living with ALS who are not eligible for ongoing clinical trials for the prevention, diagnosis, mitigation, treatment or cure of ALS. The maximum project period is 4 years. The opportunity will open on Feb. 23, 2023, and APPLICATIONS ARE DUE BY MARCH 23, 2023, AT 5 P.M. LOCAL TIME OF THE APPLICANT ORGANIZATION.
For additional information, please refer to the RFA posted on the NIH Central Resource for Grants and Funding Information (Funding Opportunity Announcement Number: RFA-NS-23-012).

2023 King Trust Fellowship Program: Health Resources in Action has recently launched the 2023 cycle of the Charles A. King Trust Postdoctoral Research Fellowship Award Program. In recognition of additional support needed to help researchers achieve their independence, we have increased the award amount to include stipend, fringe, and a flexible expense allowance. We encourage you to disseminate this opportunity to eligible faculty, clinicians, and postdoctoral researchers. Join us for the King Trust Fellowship Office House (Register here), to be held on Thursday, January 19, 2023 from 11:00 AM – 12:00 PM. This informational session will be used to give applicants and institutional officers an overview of the program and answer any general questions about the program.

The ALS Association is excited to announce that the request for applications for the Milton Safenowitz Postdoctoral Fellowship Program is now open for 2023. Letters of Intent are due Wednesday, March 8, 2023, by 5 p.m. US ET.
The Safenowitz Fellowship Program supports the development of promising early career scientists doing research of high scientific merit and relevance to ALS with grants of up to $150,000 for two years. We are especially interested in funding studies for new target validation, risk factors research, biomarker discovery, assistive technology development and measurement of caregiver/family burden.
Applicants who received their highest degree (e.g., Ph.D. or M.D.) less than two years before the date the award starts are eligible to apply. Individuals must have the skills, knowledge, and resources necessary to carry out the proposed research and have an existing postdoctoral position, including the support of their mentor.
For more details, please visit our website: https://www.als.org/research/funding-opportunities/milton-safenowitz-postdoctoral-fellowship-program-2023.
If you have any questions about this exciting funding opportunity, please reach out to researchgrants@alsa-national.org. We look forward to receiving your applications.

UMASS CHAN REMINDER
UMass Chan Medical School’s Office of Communications is initiating regularly scheduled opportunities where faculty, staff, and students can have a professional headshot taken. Photos are taken every other Wednesday from 9 AM to 3 PM on the fifth floor of the Sherman Center by the elevators. Each session caps at 50 people. Anyone at UMass Chan can sign up using this document found on the SharePoint site. See updated link for new options: Photo Sign-Ups (office365.com)
REQUIRED IT Security and Privacy Training: With the new year upon us, I want to remind everyone to complete the required Information Security and Privacy training. The 25-minute training module teaches users how to identify and prevent cyberattacks, reinforcing knowledge that applies to the use of technology at work and at home.

This annual training is mandatory without exception for all members of the UMass Chan community.

If you have not already completed the training, please log onto the Information Security and Privacy training portal (provided by InfoSecInstitute.com) and complete the training as soon as possible.

PQHS Weekly will be sent to all members of PQHS on Monday mornings. The intent is to provide a snapshot of what is going on that week in PQHS and to share our faculty and staff activities with the department. We depend on you to provide the items we need to share. Please send suggestions of events, faculty invited seminars & talks, honors, student thesis presentations, and news – new babies born! – to Kellie (kellie.armstrong@umassmed.edu) & Sarah (sarah.yeboah@umassmed.edu) by Friday each week.
