A Welcome to Our Community Network

Welcome to the Central Massachusetts Psychosis Network!

As a way to create a more inclusive community, the UMass Psychotic Disorders Clinical Research Program has developed the Central Massachusetts Psychosis Network (CMN) to serve as a comprehensive network of related sites focused on psychotic disorders and other severe mental illnesses. The purpose of this network is to promote the clinical, research, education, and outreach activities of the UMass Psychotic Disorders Clinical Research Program to improve the clinical care and quality of life for those living with psychosis and other severe mental illnesses.

In addition, we are interested in partnering with community organizations who are interested in psychosis, schizophrenia, and severe mental illness. We hope to network with you as a way to promote our mission of improving the clinical care and quality of life for those living with psychosis and other severe mental illnesses.

To learn more about our network, please contact us directly by phone at 508-596-5462 or by email at mind@umassmed.edu.

The UMass Psychotic Disorders Clinical Research Program participates in a number of ongoing research and educational initiatives dedicated to understanding and treating psychosis and other severe mental illnesses. The program is committed to improving the clinical care and quality of life for those living with psychosis and other severe mental illnesses.

To learn more about our research efforts, please visit our research webpage at umassmed.edu/cmpn.

In matters of research and education, we are committed to the highest standards of scientific inquiry and integrity. We are dedicated to ensuring that our research and educational activities are conducted in accordance with the principles of respect, integrity, and excellence.

The UMass Psychotic Disorders Clinical Research Program is committed to conducting all research activities in accordance with the principles of respect, integrity, and excellence.
