

University of Rochester Visiting Clerkship Program

Good morning Colleagues,

Three funded visiting clerkship positions are available at the University of Rochester Medical Center from August through November of 2016 for select applicants from backgrounds underrepresented in medicine (URiM) or who have a demonstrated vision and commitment to improving the health status of diverse patient populations via patient care, research and/or teaching.

- Funding includes up to \$1,000 for reimbursement for travel and housing.
- Each student will be paired with a faculty member that will serve as a mentor and advisor.
- Each student will be given the opportunity to meet with the Residency Program Director.
- Each student will be paired with a URM resident and 4th year medical student who will introduce them to the medical center, its resources and the Rochester community.

Program Description

The visiting clerkship program is designed to give students an opportunity to experience training at URMC and to connect with faculty, residents, and 4th year medical students.

Eligibility

Must be a registered student in good standing at their home school while participating in the externship
Full-time, final year medical student attending a LCME-accredited U.S. medical school and have completed 3rd year core clerkships
