

EMERGENCY INFORMATION

- **UMASS POLICE/ PUBLIC SAFETY:**
 - **EMERGENCY/FIRE: 911**
 - NON-Emergency: University: 508-856-3296 / Memorial: 508-334-8568
- **CODE: Cardiac/Respiratory Arrest (Univ. & Memorial) 12345**
- **UMASS Medical School: 508-856-8989** main # (from outside only)
- **TELEPHONE System:** External: DIAL 508-number
Internal: dial 6-XXXX [ext] or 4-XXXX [ext]
- **PAGING System:** Internal 77-XXXX [beeper number]
(Univ. & Memorial) External 508-334-PAGE or 508-334-1000
- **STUDENT HEALTH: 508-334-8464** - During regular hours
911 - Life-threatening emergency
508-334-2818 - After hours
- **STUDENT COUNSELING: 508-856-3220** During regular hours
Emergency/After hours: **508-856-3562** page Dr. Ruth Rizzi (4261)
- **WEATHER LINE: 508-856-1100:** school cancellations or delays

FIRE = RACE

If you discover a fire you must make sure that several things are done quickly.

Think of the word “**RACE**” to help you remember.

R <u>R</u> ESCUE	If possible, remove anyone in immediate danger.
A <u>A</u> LARM	Pull the nearest fire pull station and call extension 911 from an in-house phone at Hahnemann, Memorial and University Campuses. Call 911 (may need to dial an outside line first) at the ambulatory and community centers to report fire location.
C <u>C</u> ONTAIN	Contain or confine fire by closing all windows and doors.
E <u>E</u> XTINGUISH	If trained, and safe to do so, extinguish the fire with the appropriate extinguisher or EVACUATE as necessary or appropriate.

Procedure following Blood/Body Fluid Exposure

Students who experience a critical exposure such as blood, visibly bloody fluids or other body fluids e.g. cerebrospinal, synovial, peritoneal, pleural, amniotic, semen, vaginal secretions from a needlestick/cut or splash to eyes, mouth, nose, or open cut should:

WHAT TO DO:

1. Gently bleed, wash, and flush affected area with soap & water (only water for eye)
2. Page **BUGS beeper: Internal: 77-BUGS (2847) / External: 508-334-1000**
3. Notify your supervisor/Supervising resident and clerkship director.
4. Obtain initial evaluation. –**DO NOT DELAY** - It is important to be evaluated within 2 hours of exposure. You may need immediate treatment.
GO to the appropriate place for evaluation and treatment:
 - Employee Health University Campus 774-441-6263 (M-F 7:00am- 4:00pm)
 - Employee Health Memorial Campus 508-334-6238 (M-F 8:00am - 4:00pm)
 - Employee Health 210 Lincoln St. 508-793-6400 (M -F 8:00am - 4:00pm)
 - If after hours, go to the Emergency Department - **DO NOT** go to Student Health for any immediate attention for a needlestick/body fluid exposure.
 - At all other sites, students should follow protocol @ that site for initial treatment and follow-up will be provided through Student Health.
5. Fill out incident report and bring to Student Health.
6. All students with exposures will go to Student Health for Follow-up after initial visit in the ER or with Employee Health.

Caring for Patients on Airborne Precautions

If assisting in the care of a patient in a neg. pressure room or on respiratory precautions. (e.g. TB, SARS), you **MUST** be wearing a fit tested respirator such as a NIOSH-approved N95 respirator **before** entering a patient's room.

*No student will be allowed to start clinical rotations until they have cleared or exempted from the N-95 fitting requirement with Student Health (508-334-8464).
