

The Ellinwood Annual Lecture in Vascular Surgery

The Annual Ellinwood Lecture in Vascular Surgery was made possible by a generous gift of Joseph Ellinwood and his family. Twenty-seven years ago, Dr. Bruce Cutler repaired his ruptured aneurysm. To express his appreciation, Mr. Ellinwood told Dr. Cutler that he was interested in donating funds to encourage teaching, research, and an annual lectureship that emphasized personal interactions between students, residents, and attending surgeons with a visiting professor. This gift has made it possible for us to bring annually an internationally recognized vascular scholar to UMass Medical Center. Each lecturer has provided a stimulating presentation and educational experience throughout the day for students, residents, and faculty.
