UMass Memorial Health Care is the largest not-for-profit health care system in Central Massachusetts with 1,500 physicians and more than 13,000 employees. Our comprehensive network of care includes teaching hospitals, affiliated community hospitals, outpatient clinics, community-based physician practices, and home health, hospice, rehabilitation and mental health services. UMass Memorial is dedicated to promoting health and wellness in the community, and is proud to be the clinical partner of the University of Massachusetts Medical School.

Contributions and memorial gifts to UMass Memorial Health Care are deeply appreciated. For information, call the UMass Medical School/UMass Memorial Development Office at 508-856-5520 or e-mail giving@umassmed.edu.
Our Depression Specialty Clinic psychiatrists perform evaluations tailored to each patient that address questions that arise during treatment. When further testing is indicated, the following services are offered in order to develop comprehensive and integrative treatment recommendations:

- Structured diagnostic interviews and validated symptom rating scale assessments
- Laboratory services
- Neurodiagnostic services
- Neuropsychiatric consultations
- Neuropsychological testing
- Pharmacogenetic services
- Polysomnogram studies

Treatment recommendations may include:

- Psychopharmacologic interventions
- Psychotherapies
- Neuromodulation
- Education, rehabilitation and recovery interventions

Scheduling a Consultation

To schedule an appointment, patients or physicians call 508-334-0366. A review of the current treatment plan, and past medical and treatment history is completed. All patients must have a prescribing physician that can coordinate care with our team since follow-up care is not provided by the Depression Specialty Clinic.
