Present a Professional Development Seminar

The Translation of Innovation from Academia to Industry

Steven Munevar, Ph.D., M.B.A.
President & CEO
Munevar & Associates, Inc.

Dr. Steven Munevar, Ph.D., M.B.A. (GSBS Ph.D. 2003) is the founder, CEO and President of Munevar & Associates, Inc., a life science technology development and commercialization solutions company based in Boston.

Dr. Munevar will speak about the translation of innovation from academia to industry and the potential opportunities that exist in the entrepreneurial and new venture space. He will emphasize where and how graduate students and postdocs can begin to leverage existing resources toward creating opportunities for themselves in a changing life science landscape.

Come listen to Dr. Munevar speak about his experiences in building his current life science company as well as his thoughts on the state of the life sciences present and future.

Friday, November 18, 2011
