*Present a Professional Development Seminar*

## **Applying Statistics to Your Data: An Introduction to Using Statistics to Illuminate Your Results**

**Stephen Baker, MScPH  
Assistant Professor, QHS  
& Cell Biology and Senior  
Biostatistician ,  
Information Services**

Are you unsure how to use statistical methods to obtain valid results from your hard earned data? Come increase your general knowledge and learn when to use the different statistical tests available in Prism® and other graphing programs.

Stephen Baker has spent nearly 30 years at UMMS providing education and expertise in statistical analyses to faculty, staff, and students throughout the University. Prior to joining UMMS, he spent several years designing, analyzing and managing clinical trials in the pharmaceutical industry.

**Thursday, March 28, 2013  
2:00 to 3:30 - Q & A to follow  
Lazare Auditorium (S1-607)  
Refreshments will be served**
