What is an opioid pain management agreement?

- Treatment Agreements are documents created by different practices to help provide education and information articulating rationale and risks of treatment
- Helps to counsel patient on the risks and benefits of opioid analgesics, and obtain verbal informed consent for their use

OPIOID PAIN MEDICATION AGREEMENT

goals), opioid pain medication is being prescribed for me. In order to make this medication safe and follow	
	nderstand that:
(patient's name)	
-This medication may not take away all my pain.	
-I should follow the directions given to me by my health care provider. I w	ill not take more than what I am
told to take.	
-There are side effects of this medication described to me by my health care provider. All my questions about	
this medication have been answered.	
-I will call my health care provider's office if I am having side effects after starting this medication.	
-This medication may make me sleepy. Driving or operating machinery while taking this medication	
can be dangerous.	
-Taking alcohol or street drugs along with this medication is dangerous.	
-My body may get used to the medication and if I stop it too quickly I could get sick.	
-Some people have become addicted to these medications. If I think this is happening to me I will speak to my	
health care provider.	is mappering to me i iiii speak to my

I agree:	
(patient's name)	
-To obtain pain medication only from the health care provider signed belo	w or his/her medical team, and to
notify my provider immediately if I obtain any pain medication from an emergency room.	
Only to get pain medication during regular office hours and not to call after office hours for pain medication.	
-To fill my medications only at one pharmacy which is	
-To give urine samples and to bring in my pills to be counted whenever asked of me.	
-Not to use illegal drugs along with this medication.	
-Not to sell or give away my medication.	
-To keep my medication safe. If it is lost or stolen I understand it may not be replaced.	
-To allow my health care provider to exchange information with people who might need to know about my	
medication use if he/she thinks it is necessary for my health and safety.	
-To keep all of my health care appointments recommended to me to treat my pain.	
-That my medication can be stopped at any time, after a discussion with r	ny health care provider.
